

ANNOUNCEMENT

FORAMS '94

San Francisco Bay Area

Berkeley, California

July 6-8, 1994

Sponsored by the Museum of Paleontology-UC Berkeley,
Geology Department-Stanford University, and the US Geological Survey- Menlo Park.

1st Announcement

Held in the beautiful San Francisco Bay area of northern California, *Forams '94* will continue the tradition of the highly successful past "Benthos" foraminiferal meetings. This meeting will include all foraminifera and related subjects.

The meeting will be in a California mission atmosphere with lecture halls, patios, suites, dormitories, and banquet facilities at the University of California, Berkeley, Clark Kerr Convention Center. The Center is ideal for professional discussion, collegiality, and personal interactions, and participants will find their stay in the Center to be exceptionally enjoyable, thoroughly pleasant, most productive, and all at quite reasonable costs. Berkeley is easily accessible by van service, metro (BART), and cab from San Francisco and Oakland International Airports.

The meeting will be organized into theme and volunteer sessions and the papers will be published in a suitable outlet, as in the past. Field trips and tourist excursions as well as workshops are planned to complement the meeting.

The Final Circular, with all costs, theme topics, registration fee, final program, and abstract forms, will be mailed in September, 1993, to those responding to this notice.

If you plan on attending the meeting, please check your interest below and return to *FORAMS '94*:

Scientific Program

- I would like to give a paper (15 minutes) or poster tentatively titled:
- I need a formal invitation from *Forams '94* in order to participate.
- I will not present a paper.

No Cost Workshops

- Phylogenetic analysis (cladistics) of foraminifera.
- Morphometric analysis of foraminifera.
- DNA sequencing of foraminifera.
- Sequence biostratigraphy using foraminifera

FORAMS '94

Field trips

- Monterey Bay, California: Miocene foraminifera (Monterey Formation), Monterey Bay Aquarium, and coast of central California.
- Cretaceous foraminifera, California Coast Ranges.
- Permian fusulinids of SE California.
- Cambrian stratigraphy, White-Inyo Mountains, California.
- Shallow-Water foraminifera, Bodega Marine Laboratory.

Tours

- San Francisco, Golden Gate Bridge, and Muir Woods.
- California Academy of Sciences (natural history museum, aquarium, and planetarium) and Golden Gate Park (Japanese Tea Garden, roses, etc).
- San Francisco Bay Cruise.
- The Napa Valley Wine Country of California.
- East of San Francisco (East Bay Regional Parks).
- UC Museum of Science, Art and Culture at Blackhawk, and Mt. Diablo State Park (Antique autos, paleontology, anthropology, & geology).
- Yosemite National Park, central California.

Accommodations (prices tentative only)

- I prefer a single room (~\$65 to \$75 including three meals/day).
- I prefer a double room (~\$50 to \$60 including three meals/day).
